Going forward, it is key that you take advantage of the functionality on our website in order to **request pick-ups or book shipments**. This will allow us to pass on the full benefits of an automated system to you resulting in improved accuracy across the network. You can also obtain both US and domestic rate quotes at www.dayross.ca, track your shipments, and download copies of any paperwork you might need. By going through the proper process to request your pickups, we can offer you improved efficiencies through better route planning resulting in:

- **elimination of duplicate work;**
- **reduced errors caused by re-keying information;**
- **increased visibility into the status of your shipments due to information flow-through to our website.**

Please note that, if you are unable to access our website, you can email custservice@dayandrossinc.ca and request a copy of the POD.
